REF: TO WHOM IT MAY CONCERN

PPC would like to confirm that samples of plastic aggregates were sent by ELE Collection which is their new eco-friendly plastic aggregate products.

A batch of concrete cubes were prepared using PPC Cement and plastic aggregates supplied by ELE collection and were subjected to the traditional concrete cubes' tests at various curing stages at PPC Harare Laboratory.

We can confirm that the test results of the sample supplied and tested with PPC Cement meets the minimum requirements as stipulated by the conventional concrete standards.

For PPC

Ignatius Kundayi Mapfumo
(Acting Plant Manager)
